SOUTHERN BAPTISTS TO ERECT BIG HOSPITAL

Atlanta, Ga., Sept. 3.—Construction of a great general hospital at New Orleans by the Baptists of the South will be recommended to the Baptist Home Mission Board at its regular meeting in September by Dr. John F. Purser, president of the board and Dr. B. D. Gray, corresponding secretary.

Their report will show that the city of New Orleans offers a valuable site two and a half miles from the heart of the city, and that commercial organizations stand ready to give heartiest co-operation in the estsblishment of the proposed hospital.

The plan of the Southern Baptist convention, which authorized the survey, contemplates the expenditure of from one million to three million dollars for the construction and maintenance of such a hospital as Johns Hopkins at Baltimore.

TIRES OF TRAVEL VIA FREIGHTS AND TIES

Paris, Ky., Sept. 3.—"If ever I get back home to Rome, Ga., there are not oxen enough in Georgia to pull me away again," said May Scott, 16-year-old run away, who was taken in charge here yesterday by Chief of Police W. Fred Link.

The girl admitted she had run away from home about a month ago to see the world. She rode on a freight train to Somerset, Ky., where she was detained by the authorities and afterward give atransportation from Somerset to Cincinnati. There she worked in a hospital and later stayed four days in the Home for the Friendless.

Crossing the river to Covington, she says she walked twenty-five miles on the railroad track, finally "jumping" a freight and landing in Paris yesterday.

Her story of how she was beguilded into an automobile by a young man last night and how she jumped from the machine in the country and walked back to Paris, together with her apparent childish innocence, appealed to Paris women, who raised money to purchase a ticket for her to her home in Georgia, and this morning she was placed in charge of the conductor.

She claims to have a wealthy aunt living in Chattanooga.

DOG HERO RECEIVES REWARD

Saving persons from drowning has its rewards, judging from Ted, the Boston bull terrier, which added a third rescue to his credit Wednesday, when he saved Frederick Hennicks, and yesterday was presented a "hero medal" by Hennicks. The "medal" is a collar, bearing a silver plate inscribed with the details of Ted's latest rescue.

Ted was born on a patrol boat during the war and when scarcely 6 month's old, saved the life of a 10 year old girl who had fallen overboard in the harbor at Havre, France. Last Sunday Ted leaped from the steamer William A. McKenney, of which he is the mascot, and fastened his teeth into the hair of a member of the crew whom he thought was drowning. Wednesday afternoon Ted again leaped from the deck when Hennicks fell from the launch Jerome, when the rail he was leaning against broke. This was the third time Hennicks, who cannot swim has been rescued.

MINERS ACCEPT THE NEW AWARD

Sign Two Year Contract But Ask Reopening

85,000 MEN ARE IDLE

"Outlaw" Strike—Workers Said to Desire Raise in Keeping With Bituminous Field.

Scranton, Pa., Sept. 3.—Anthracite operators and miners tonight signed a two-year contract embodying the terms of the award made by the Anthracite Coal Commission and approved by President Wilson.

The agreement was signed under protest by the representatives of the miners.

Their scale committee will meet here today for the purpose of asking that the wage agreement be reopened and the mine workers given such further increases as was done in the case of the bituminous coal diggers.

The scale committee went on record in a statement to the operators that the award of the commission was "far from being satisfactory," and that it was economically unsound, disturbed the differentials, straddled the real issues, would cause confusion and react against harmony and co-operation.

The miners were prepared to present new demands at once, but it is understood the operators let it be known they were there for one purpose and that was to accept the award as approved by President Wilson and that if the workers had anything further to communicate it would have to go through regular channels, as the mine owners' committee felt they had no authority to receive new demands.

It was said the miners' scale committee might decide tomorrow to communicate direct with President Wilson, requesting him to have the wage agreement reopened.

While the negotiations were going on today it was anticipated that at least half of the 170,000 mine workers of all classes in the anthracite regions had quit work as a protest against the award.

The United Mine Workers' organization has called no strike and the suspension, which has been termed a "vacation" by the men, has not been authorized, union leaders declared. One of the union chiefs said it was a

Practically all of the cases embraced by the prosecution order were turned over by the War Department but there were indications that similar cases would be received from other Government departments. SET SPEED MARK IN DASH TO AID OF SUBMARINE

Norfolk, Va., Sept. 3.—Speeding at the terrific pace of nearly 41 miles a minute, the United States destroyers Preston and Breckenridge reached the submerged submarine S-5 shortly after 2 o'clock yesterday morning.

They made the run from the Hampton Roads Naval Base to the scene of the submarine accident, a distance of 115 miles, in slightly ly more than two hours.

It was said to be the speediest dash a United States Naval unit had ever made in going to the assistance of a disabled ship.

The two destroyers passed the battleship Ohio shortly after midnight although the larger ship had left Lynnhaven roads an hour ahead of them.

The Preston and Breckenridge are among the fastest vessels in the American navy. In their speed trials after their launching they made 35 knots.

LORD MAYOR NEAR DEATH

End of MacSwiney Now a Matter of Hours

Brixton Prison, London, Sept. 3.—Lord Mayor MacSwiney offered an appreciable change for the worse about 10 o'clock last evening.

Relatives of the imprisoned Lord Mayor have gathered near awaiting the end, the Lord Mayor being unconscious.

MacSwiney was reported last night to have suffered paralysis of the right arm and right leg, due to failure of his circulation. Physicians in attendance feared that paralysis of his entire body gradually will set in.

His devoted sisters are at his bedside continually, taking turns at watching over him and reading from the devotional to him. And Father Dominic, his chaplain, is always with in call—a greater part of the time in the cell itself.

The Lord Mayor's sister Anne, emerging from the prison at noon today, appeared deeply affected.

"The end is near," she told friends around the gates. "Terry realizes it, too. He asks us to read the devotional manual to him constantly."

MacSwiney has made his will. He isn't rich, and that means that his wife, Muriel and his little 3-year-old son, who is at Cork will be practically dependent upon friends.

The family's advisers and relatives while they realize that the Lord Mayor has already accomplished three-quarters of what he sought to do, in that he heralded throughout the world the cause of Ireland, are nevertheless anxious to save his life if it is possible. But they are not interfering because they realize that arguments are useless, but would merely cause the Lord Mayor pain and mental anguish.

RESCUE CREW OF 37 FROM SUBMARINE

S-5 Submerged For Forty Hours Supplied With Air

MACHINERY DAMAGED

Enroute From Boston to Baltimore Crew Rescued by steamer General Goethals

All of the sailors and officers aboard the submarine S-5 today were taken off and taken to Philadelphia.

The submarine S-5 of the United States Navy has been submerged for more than forty hours in twenty eight fathoms of water fifty-five miles southeast of Cape Henlopen, one of the Delaware Capes, and her crew of two officers and thirty-five men are being kept alive by air which is being pumped into the vessel by two ships which are standing by on the surface. Latest radio reports received early this morning by navy yards along the coast said that the men are still living and are in good condition. Destroyers and repair ships equipped with apparatus for cutting through the hull of the submarine were rushed to the rescue shortly after the radio message telling of her plight was received.

The Navy Department first learned of the accident to the S-5, which was only recently commissioned and which was going from Boston to Baltimore on a recruiting trip, when this wireless from the steamship General George W. Goethals was picked up.

"On Board U. S. S. General Goethals at Sea, Sept. 2.—Send destroyers with gear to relieve crew in submerged submarine S-5. Been in this condition for thirty-five hours. Bring material for cutting through hull."

The radio message was also picked up by a number of amateur wireless operators along the coast. One of them, David L. Moore, picked up the message in Farmington, Conn., where he was an amateur's outfit, and made it public.

Only very meager details of the accident have been received by the Navy Department authorities. It is known, however, that the General Goethals, proceeding along the regular steamship lanes en route from Panama to New York, sighted a telescope buoy tossing amidst the waves in front of her. The bell on the buoy was ringing and a small boat was immediately lowered from the General Goethals. The boat reached the buoy, put in on the telephone apparatus on it, and then from the depths of the sea came this message:

"The submarine S-5 has been submerged for thirty-five hours. Air is running short. Machinery damaged. Send for help."

The Goethals immediately sent out radio messages telling of the plight of the submarine, and then stood by to render whatever aid was possible, keeping in communication with the submerged vessel by means of the telephone on the buoy. Later another vessel, according to the radio reports received by the Philadelphia Navy Yard, joined the Goethals after having picked up the latter's radio. During most of the afternoon the two ships rolled idly in the waves, unable to help, waiting for the Navy to send Wyss having the gear necessary to cut through the steel hull of the submarine and release the imprisoned members of the crew.

Shortly before dusk last night the telephone operator who had been standing all day with his ear to the telephone wire that connected the men under the water with the vessels above, received this message from the commander of the submarine.

"We must have more air."

DANZIG'S COMMISSIONER

At the very time when Poland, apparently at the point of extermination by Bolshevik barbarians, was most in need of war munitions the only port through which she could get them was closed to her by Sir Frederick Tower, the High Commissioner of the Free City of Danzig. Ship loads of munitions were held at the docks by this arbitrary action and Poland was left to her fate if she could without them.

The reason which Sir Frederick gave for this proceeding was that he feared it would not be safe to allow the landing of the cargoes. Safe for whom? If the Poles in landing them had died at the hands of Germans in Danzig their deaths would have been no worse than the deaths of their countrymen at the hands of the Reds in Warsaw. Was Sir Frederick afraid that stray shots might hit innocent bystanders?

The High Commissioner was upheld in his course by the German members of the Constituent Assembly of Danzig who passed a resolution calling upon him to proclaim the neutrality of the city. But that official does not get his authority from the Constituent Assembly of the town, nor is he supposed to take his orders from it. His course at least lends color to the openly expressed suspicions of the French that he is partial to the Germans and that the impudent behavior of the Germans in East Prussia is largely due to his attitude. The reason which he alleged for refusing to permit the disembarkation of the cargoes, a poor reason at first, soon became ridiculous when enough British and French warships entered the harbor to blow the city out of existence.

Sir Frederick has been called down, but after the worst necessity for the munitions had passed. Mr. Millerand, the French Premier, telegraphed to Sir Frederick last week inviting him (how polite the French always are!) to assure to Poland complete liberty in the importation of war material through Danzig. And the invitation was sent after the British Charge d'Affaires at Paris, the news reports tells us, had called at the Foreign Office and informed Mr. Millerand that Mr. Lloyd George "recognized the absolutely formal right of Poland to export and import through Danzig without restriction."

Of course Mr. Lloyd George recognized this right all the time, but he has been a very busy man lately—perhaps so busy with his own trouble that he was belated in getting around to the troubles of Poland at Danzig. He knew Poland's rights in the matter, because he was one of the men who gave them to her. They are guaranteed by the Treaty of Versailles, which Mr. George did much to draft. He, of all men, ought to be solicitous that those rights be protected, for his is largely the responsibility for the establishment of Danzig as a free city under the League of Nations. In the settlement of the peace terms at Versailles Danzig should have gone to Poland outright. The representatives of the United States and of France at the Peace Conference were in favor of recognizing Poland's claims to the town and allotting it to her, but Lloyd George stood out for the present arrangement and had his way. It is a poor way if the High Commissioner is to be allowed to defeat its object as Sir Frederick Tower did.

'MEMBER, STEVE?

'Member, Steve, when you an' me
Was boys—Contrairy boys?
'Member what a store we sot on
Certain simple joys—
Markers in our memory that linger
Through the years,
An' sort o' make ye catch your breath an' fill your eyes with tears?
Used t' set a lot o' store in that ol' cookie jar—
Pleasant kind o' plunder in the pantry of your mar.
Used t' think a lot about a Punch an' Judy show—
Wonder how we ever cared for anything as slow.
We used t' look upon a hoss with proper, childish pride,
Nowadays you couldn't get a kid t' take a ride!
Start to tinker 'round a car t' see
Where trouble lies:
Any boy, with half a glance, can put a fellow wise!
Take a kid—most any kid—an' look into his mind,
Poke around inspectin' like an' see what you will find.
There's motor cars a runnin' there, an' life in seven reels.
An' swarms of swoopin' airoplanes.
That's how he thinks an' feels!
We've moved ahead a peg or two since you an' me was young,
In spite of all the sobbin' songs, forever bein' sung.
Don't tell me things ain't what they was, wit hfaces long an' sad
The world is better every way, an' never was it bad.
The hearts of men are soarin' Steve, on braver, broader wings.
The wrath of man is pourin,' Steve, upon the heads of Kings.
We're reachin' out—we're strikin' out, some way we can't express,
To reach the life of gentle hope and humble happiness.

COX TO TOUR WEST

Governor to Carry Intensive Fighting Into Michigan Today

Columbus, Ohio, Sept. 3.—Gov. James M. Cox started westward tonight. He went out to win the West that gave Woodrow Wilson victory four years ago.

The thirty-day speaking tour, opening in Michigan tomorrow, was expected by his managers to reveal him to the nation as a hard-hitting campaigner.

It is the purpose of the Democratic nominee to maintain a running fire of attack upon the Republican party, its campaign contributions, its "puppet nominee," its "Senate oligarchy," with here and there a broadside at the Marion front and rear porches.

Where the sentiment of the people, indicated by the course of their Senators, is for American participation in the league of nations, the covenant will be thrust into prominence by Gov. Cox. His tour will carry him into States represented at Washington by Republican Senators who belonged to the "mild reservation" group.

"Wall Street" still is regarded as a red flag in some sections of the cattle country. The influence of the national financial center in the forthcoming elections will be pictured in glaring colors by the speaker, once he has reached the sections west of Chicago.

The slogan of the nominee will be that the "people are the sovereigns." He hopes to carry the fight to the opposition. He expects to retain the offensive.

BOYS OF 6 AND 8 WRECKED TRAIN

Hartford, Conn., Sept. 3.—Thos. and John Rychele, 6 and 8 years old, confessed yesterday afternoon that they were responsible for wrecking the New York to Boston express near Meriden the afternoon of August 21, killing Engineer Geo. F. Bill, of Hartford, and Fireman William E. Cotter, of Springfield and injuring a score of passengers.

Capt. James Carroll and his squad of railroad detectives recently learned that the two boys were posing as heroes before their playmates and boasting how they had placed stones on the rails, and then had been eye witnesses of the wreck.

After severe questioning yesterday the boys told the railroad detectives how they had placed stone on the rails, expecting they would be crushed by the train, but not believing they would cause a wreck.

The detectives said last night the boys would be arraigned in the Meriden police court tomorrow.

DOG SAVES DROWNING MAN AND NEARLY GIVES OWN LIFE

Baltimore, Sept. 3.—Unable to swim, Fred W. Hennicks, 31 years old, 509 South Potomac street, was saved from drowning by a Boston bull terrier yesterday off Fort Carroll, when a rail on the launch Jerome broke and dropped him into the harbor. The dog was sucked under the launch and cut by the propeller, but kept afloat until it, too, was rescued.

The dog, owned by Captain Berenger, of the steamer William A. McKenny, jumped from the deck of the steamer when Hennicks was struggling in the water and grabbed him by the hair, holding him up until he was able to catch one of the lines thrown to him. The boatswain of the steamer, who also was unable to swim risked his life by jumping in after Hennicks. He was pulled on deck by a line thrown to him.

His Pay Check Shows Increase

For First Time in Years Popular Railroad Man Is Able to Draw Full Pay

"I have just finished my fourth bottle of Tanlac and have gained thirteen pounds," was the remarkable statement made by Floyd W. Farren, a car repairer living at 816 31st street, Huntington, West Virginia, in a conversation with the Tanlac representative, a few days ago.

Mr. Farren is a member of Local Union No. 65, Brotherhood of Railway Carmen of America, and is not only popular in railroad circles but is highly respected by all who know him.

"My last month's pay check," explained Mr. Farren, "was the first one I have drawn in more than a year that shows full time. I began suffering with stomach trouble fifteen years ago and had gotten to the place where I could hardly get around at all. I just had that 'all in, down and out feeling all the time and, in fact, my case had been pronounced hopeless. I could only manage to work about half the time. My pay check for the past year shows a deduction of sixteen or seventeen days a month for time I lost on account of not being able to work. I was not only suffering physically but was worried almost out of my wits, for it looked like I would soon get to where I could no longer earn a living for my family.

"But by the help of Tanlac I now enjoy first class health and am able to put in full time, never missing a minute from my work. I am now able to eat just anything I want, even cabbage and other things considered the hardest to digest seem to agree with me perfectly. I never have the least sign of indigestion, no matter what I eat, and my stomach simply feels like a new one. All the praise, thanks and gratitude for my present good health belongs to Tanlac, I am glad to make this statement for what it may be worth to others who are trying to find relief, for Tanlac is the only medicine I have found in fifteen years that does what they say it will."

Tanlac is sold in Alexandria by Edgar Warfield, jr.

CALOMEL HORROR TOLD BY DODSON

You Don't Need to Sicken, Gripe, or Salivate Yourself to Start Liver

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling splendid. It is perfectly harmless so give it to your children any time. It can't salivate.

'LOVE DRINK" WAS MORE THAN COSTLY

New Orleans, Sept. 3.—Constantine Cianci, twenty-six, is telling how he paid $1,000 and a trip to Italy for one "love drink". Cianci was Italy bound when he went to the old Spanish fort here to see the sights, but when he met petite "Irma," winsome brunette he danced. After an automobile ride she offered him the "love drink." Cianci awoke in the street shy $960 his watch and other valuables, he said. He postponed the trip to Italy and today was working as a common laborer.

WORK OF REGISTRARS HAS ITS AMUSING SIDE

Philadelphia, Sept. 3.—Women, old and young, presented problems for the registrars yesterday.

One young woman, Miss Dorothy Dexter, of 6538 Sherwood Road, Overbrook, asked the registrar at 1991 North Sixty-third street, if she could vote in November as she was registering as a Miss, but that she would be a Mrs. before then and her name would not be the same. The Registrar has referred the question to the Board of Registration Commissioners.

Facetious registrars warned women voters they had better not resort to bobbing their hair or tinting it with henna between now and Election Day or they might have difficulties, since their descriptions would not then agree with those taken yesterday.

MAIL OF PRISONERS CANNOT BE OPENED

Trenton, N. J., Sept. 3.—Commissioner of Institutions and Agencies Burdette G. Lewis, condemning the practice of some custodians of prisoners of "snooping" into other persons' business, today sent a special letter to all Sheriffs, wardens, superintendents and keepers of jails of New Jersey, warning them that it is a violation of Federal law to open mail of prisoners whether Federal, State, county or municipal or otherwise without the written consent of the prisoner. This warning is based upon an opinion prepared by Special Assistant District Attorney Isiah Matlack, of this city, at the direction of U. S. Judge J. Warren Davis.

SUGAR CAUSE OF RIOTS AMONG IMMIGRANTS

New York, Sept. 3.—A "sugar bowl" riot broke out among the 1,750 immigrants in the Ellis Island dining room today, when for the first time since the war sugar, substituted for molasses to sweeten coffee, was put on the tables. Several aliens were removed to hospitals, one with three fractured ribs.

Some of the hundreds had not seen sugar since the first months of the war. They immediately began to delve with their fingers into the sweet stuff. General attacks were launched at a few who tried to pocket the bowls. Before the riot ended all guards, waiters and kitchen employes had to be rushed to the scene.

Individual sugar packages will be distributed hereafter at meals, it was announced later.

PASSENGERS QUARANTINED

Smallpox Suspect Sends Ninety To Be Vaccinated

New York, Sept. 3.—Ninety cabin passengers of the United Fruit Company steamship Carrillo, from Santa Marta, Colombia; Kingston, Jamaica, and Santiago, Cuba, were removed to Hoffman's Island today for vaccination, after a suspected case of smallpox had been discovered on board.

Port officials said the suspected case was the first here in five years among incoming first cabin passengers.

MINERS ACCEPT THE NEW AWARD

(Continued from Page One)

"voluntary uprising" by the coal diggers as a protest against the award.

A complication in the present situation is the action of so-called insurgent mine workers in adopting resolutions to strike. This action, it is said, is an outgrowth of the last election for district president of the miners' union in the Scranton-Wilkes Barre region. The faction that lost has taken the election into court and has been opposing the policies of the miners' regular organization.

Under the award accepted today contract miners will receive an increase in pay of 17 per cent; men employed by the day, known as company men, 20 per cent, and certain other unskilled labor 25 7-8 per cent It was said last night the miners desire an additional increase of 15 per cent. for the contract miners and a further advance of $2 a day for the company men. Other demands also will be made, it was said, so as to bring conditions and wages in the anthracite field up to those obtaining in the bituminous regions.

The COURAGE of MARGE O'DOONE

By James Oliver Curwood

"The Courage of Marge O'Doone" is a vigorous, fighting story of primitive men and stout-hearted, beautiful women, fierce huskies and malemutes, red-blooded adventure and rare romance, surprise and suspense, mystery and thrills, staged in the vast white arena of the frozen North. It has all the zip and the zest, the drama and color in its score of highlights that makes it just what it is—a prize special photoplay production. It is a classic of the North—a masterpiece of dramatic writing made into a masterpiece of a photoplay.

It is a gem of the genius of JAMES OLIVER CURWOOD. A born thriller, it travels swiftly and breathlessly along, studded with smashing incident that keeps the suspense and anticipation on edge—makes you guess and guess wrong until the toppling and unexpected climax smites you. It never lags for an instant. One literary critic has proclaimed it a story ready made for the motion picture screen, another has called it hard to beat—declared it the best story that JAMES OLIVER CURWOOD has ever written.

GIVEN UP ART TO WORK AS WAITER

London, Sept. 3.—Scosland McLure, the sculptor, whose bronze statue of King George in coronation royal stands in Madras, has given up his art and is now a waiter in a beer hotel at Kingston.

The extinction of the demand of Americans for busts and the diminution of the English demand so reduced his income that it was insufficiently for his needs.

He declares the tips he received in his present job give him a comfortable living.

McLure's handiwork adorns parks, squares and public places throughout the British Empire.
